Ms Wallace's Announcements

LATEST UPDATES FROM THE HEADTEACHER

DEAR PARENTS AND CARERS,

And then we are halfway through the half term, it seems to be rushing away. Year 7 have been doing very well with adjusting, so this week we have moved back to the full lesson time and usual lunchtime; this maximises time in lessons. Well done to Year 7 for really picking up secondary life and for having the highest attendance for the third week running!

Thanks to all our families who came in for the electives evening and the Year 7 meet the tutor. It was our first bumper evening, and it was great to see both year groups engaging in meaningful conversations. In Year 7 and 8, please do attend clubs, and in Year 9 we actively encourage club participation for developing softer skills and interests. The electives ensure that every child at Mulberry Woodside has something to stand out on their CV and college application, whilst more importantly developing a love of something new.

We have our KS3 assessment evening taking place in the Assembly Hall from 4-5 pm on 9th October along with the Careers and Information Evening for Year 11 students which takes place in the Sports Hall. Families of students of any age are welcome to attend between 3:45 pm and 5:30 pm.

A bit of a shout out to all our families to speak to neighbours, friends, and to come again to our **Open Evening** this **Wednesday, 1st October**. We also have open mornings the following week for those families who'd like to see us in the working day, and of course we have our Saturday, 11th October, for those who can't make the week.

The Hub space is our after-school area where young people can be safely supervised until 5:30 pm. From 3:30-4:30 it is run by the homework club team, who we have asked to have a sign to show exactly where they are. Ms Turay runs the Hub from 4:30-5:30. If your child is in Year 11, they should be in B114 for private study.

Congratulations to our students who went through a gruelling process to be selected to be a Global Girls Conference Lead. This annual Trust event invites national speakers to talk on the subject of women in the world. The event will end with a celebration in the House of Parliament, so the stakes are high for this.

All the best for a restful weekend.

Ms. Wallace

A Roaring Day Out for our Year 7 and 8 Students

On Wednesday, 24th September, 50 of our Year 7 and Year 8 students had the exciting opportunity to watch The Lion King in London's West End.

For many, this was their first time experiencing a live West End performance, and it was a truly unforgettable afternoon. Students were captivated by the energy of the production, with its vibrant music, breath-taking staging, and powerful storytelling.

Our students were a credit to the school, showing excellent behaviour throughout the trip. Many shared how much they enjoyed the experience and how special it was to watch such a world-renowned production with their friends.

It was a fantastic day that left lasting memories and a greater appreciation for theatre.

Year 11 Citizenship GCSE Trip to Parliament

Our Year 11 Citizenship GCSE students had an unforgettable day at Parliament! They explored some of the most iconic parts of the building, including the King's Chamber, the House of Lords, and the House of Commons.

One of the most exciting moments was watching a live emergency debate on the Mandelson–Epstein scandal – a rare opportunity that really brought their Citizenship studies to life. To make the day even more memorable, the students spotted Nigel Farage in the Houses of Parliament, saw Conservative Party leader Kemi Badenoch taking her seat in the House of Commons, and were especially excited to recognise Deputy Prime Minister David Lammy, who they are very familiar with, in the chamber.

The Brain Project

Last Tuesday, 10 Mulberry Academy Woodside Year 11 pupils attended the final session of The Brain Project at the London Academy of Excellence Tottenham (LAET). The workshops, which started last June, were spread over five after-school sessions and focussed on the structure and function of the mammalian brain. In two follow-on sessions this academic year, the students completed their brain research projects.

The students displayed their research as posters in a competition and attended talks from speakers working in the fields of neuroscience and neuropsychology. We were overjoyed when Laila Khan's poster titled 'The Power of Colour' on how different colours influence human emotions, mood and behaviour, won one of the best poster awards. Congratulations Laila!

Also, well done to Keriman, Joshua, Grace, Dan, Ayse, Selena, Mwada, Gabriella, and Kiara for their dedication in attending the workshops and submitting their posters. You all did Mulberry Academy Woodside proud.

COME AND MEET US

NO BOOKING
REQUIRED

OPEN EVENING
Wednesday 1st October

5 - 7 pm

OPEN MORNINGS

Monday 6th October to
Friday 10th October

9 - 10 am

Saturday 11th October

10 - 11 am

Mulberry
Schools Trust

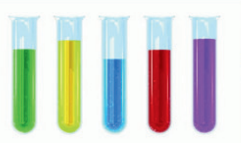

Come along to the.....

SCIENCE CLUB

AND DO SOME EXCITING SCIENCE EXPERIMENTS:

- EXPLODE HYDROGEN BALLOONS
- GROW YOUR OWN CRYSTALS
- MAKE ROCKETS
- EXTRACT DNA FROM FRUITS
- and much more.....

Every **Thursday** in **B202** at lunch break **1:00 pm to 1:25 pm.**

FUN FACT

What's the oldest colour in the world? The first known biological pigment was discovered by scientists in West Africa. It was a bright pink colour created by fossilized blue-green algae. Even after 1.1 billion years underground, it was still vibrant!

This week's *Values in Action* Invacuations

Next week our values session will focus on Invacuations. You can support students by encouraging the following:

Keep It Simple

"If something outside isn't safe, we stay in the building to keep safe."

Teach the Signal

Make sure students know:

- What the invacuation signal sounds like
- That they should stay where they are and listen

Practice Calmly

- Walk them through the steps
- Remind them: "I'm here to keep you safe."

Set Expectations

Students should:

- Stay quiet
- Follow your lead
- Stay in the room until told otherwise

Support Vulnerable Students

- Be aware of those with anxiety or SEND
- Use calm voices, simple instructions, and reassurance

STEM Students make their mark on the track

We're so proud of our STEM Racing team, who showed incredible determination and teamwork in their latest race! Despite some tough challenges along the way, our dedicated students worked tirelessly after school to get our car race-ready—and it all paid off.

In practice, the team impressed with a fantastic 5th place finish! In the official races, they secured 18th in Race 1 and 23rd in Race 2, out of 33 teams overall. For this cohort's very first outing on the track, this is a huge achievement. More importantly, the team demonstrated resilience, creativity, and real engineering skill.

Congratulations to STEM Cohort 5 (2025): Nihal Lohia Singh, Marcel Peto, Selena Fang, Tasnova Lubaba, Daniel Dore, Zaheer Syed, Joshua Reeves, Dan Stoasa, Muhammed Sari, Kuzey Kilic, and Petar Popovic.

Well done, STEM Racing Team. This is only the beginning!

KEY STAGE 4

The Mulberry STEM Academy offers 50 places for 14-16 year olds.

Students will participate in Saturday and school holiday activities.

This pathway will support higher achievement in STEM subjects and further develop the personal characteristics required by competitive STEM industries such as team work, determination, collaboration and respect. The pathway's content will be designed to encourage higher numbers to study A Levels in computer science, maths and physics.

Saturdays and holidays will feature as the delivery space for KS5 programmes and they will include:

This will include:

- Computer programming; all students will learn Python and advanced programming.
- Opportunity to design, build a race electric powered cars as part of the Greenpower competition
- The CREST Silver Award will be implemented through a series of real life problem solving challenges.
- Practical problem solving challenges based around engineering
- The teaching of robotics, using Pepper, the Mulberry Schools Trust's robot.
- Additional extra curricular activities, including trips

Your school will explain the recruitment process.
The deadline is Monday 6th October.

MAW Library announces exciting updates and competitions

With a fresh layout, shelves stocked with new volumes, students scouring the shelves for anything from Dork Diaries to the latest manga and the library has been buzzing during breaks and lunches.

This October, we're celebrating the beginning of autumn and the start of 'spooky season' with a Horror and Supernatural Literature Theme. The library will be decorated with literary history, popular books and authors, and eerie questions on why we like to be scared. Students will also be able to enter two competitions below.

ONE SENTENCE HORROR STORY

Can you scare us with just a single sentence? This challenge will test how creative our students can get when maximizing what a single sentence can do.

500 WORD FLASH FICTION HORROR STORY

A chilling story that is short and sharp with maximum impact. This competition will challenge students to work within the constraint and write something innovative and self-contained.

Prizes will be distributed to the top 3 stories of the 500 Word Short Story---winners announced at the end of October!

Manga, Manga, and More Manga

Our students here at Mulberry Schools Academy are manga enthusiasts. Copies of Demon Slayer, Jujutsu Kaisen, Death Note, and Tokyo Ghoul fly off the shelves nearly as quickly as they come in. Students swirl about the manga section, evaluate volumes, and chatter about chapters during our break times. We will keep growing this section to feed our demand!

SPOTLIGHT READS

Demon Slayer

Demon Slayer has been flying off the shelves. Every volume is currently checked out. Almost as soon as a book is returned by a student, it is checked out again. Published initially in Weekly Shonen Jump by Koyoharu Gotouge, the story follows a young boy named Tanjiro Kamado on his journey to avenge his family and defeat the demon king.

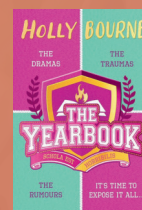

The Last Bear

Several of your younger students have gushed about Hannah Gold's novel The Last Bear. A touching story of kindness and connection with nature, The Last Bear follows scientific researcher on an isolated Arctic outpost who catches a glimpse of a lone bear wandering on the horizon.

The Yearbook

Holly Bourne's The Yearbook, a scathing and funny mashup of classic teen favourites like Mean Girls and The Perks of Being a Wallflower, is sharp and relatable. The story follows drama and gossip during creation of a poisonous exposé in the form of a yearbook.

Reading Passports

Our Year 7-9 students have also been introduced to our new reading passport system. In their biweekly library lessons, a short survey placed each student into one of three paths: Challenge, Passport Plus, or Reader's Passport. Over the year, they will log their reading, collect stamps, and earn certificates for their achievements. Like a real passport, it will track their journey and showcase all the places they've travelled through books.

Meet the Year 11 Prefect Team

A huge congratulations to the displayed students (full list below) who were successful in applying for the post of Year 11 prefect for this academic year. Prefects are a key component of our student leadership at MAW, running lunchtime activities, leading assemblies, mentoring younger students and representing the school in the community and to external visitors.

Mekhi Bennett, Destiny Billinghurst, Noah Charlery, Rayyan Culcultee, Cristian Dutca, Selena Fang, Jasmine Feishias, Kakhi Jimshelishvili, Laila Khan, Kuzey Kilinc, Tasnova Lubaba, Osman Mohamed, Sahra Nalbantoglu, Emma Oliveira, Riyaq Omar, Ayse Ozturk, Victoria Petro, Naji Murshida, Grace Reeve, Josh Reeve, Mawada Shire, Nihal Singh Lohia, and Dan Stoasa

Head and Deputy Head Prefects

A huge congratulations and well done to Joshua Reeve and Jasmine Feshias, who were elected Head Boy and Head Girl last week. These two students have given everything to the school over the last four years and have developed into inspiring and charismatic leaders. Congratulations also to Nihal Lohia and Victoria Petro who will take on the roles of deputies. Below are a few words from our Head Boy, Joshua, and Deputy Head Prefect, Victoria.

"My name is Joshua Reeve I am your head boy prefect; I am honoured to build a community which networks parents and the school i hope i can build an environment of education,leisure and friendships. I am especially looking forward to connecting all year groups 7-11 build a school we can all be proud on showing our key values or pride, kindness and respect."

"My name is Victoria and I am Deputy Head Prefect. By being in this role, I hope to help both students and teachers in my final year here by assisting and satisfying their needs through communication, comprehension and ensuring that their wants can be accessed"

Enrichment Week Letters Return by 3rd October

This week Year 7 to Year 10 were given a letter for enrichment week. They should return these to their tutors who should pass on to Ms. Caruso in the front office.

There is a prize for the first form and tutor in each year group to have full responses from their form.

The **deadline** in **3rd October** so that we can plan for those students in school.

Passcode: q4TTiX

Pathways to Employment Event

Haringey Council is pleased to share details of the upcoming SEND Pathways to Employment Event, taking place on Wednesday 5th November at 12:00pm at Haringey Sixth Form College. This event is designed to provide information and resources to support the transition into employment and adulthood for young people with SEND, in a friendly and relaxed setting. Families of younger children are also welcome to attend to learn more about future employment pathways.

What to Expect

Attendees will have the opportunity to meet a range of organisations offering disability-specific employment support, including:

- Tottenham Hotspur Foundation
- Ambitious about Autism
- Care Trade UK
- Haringey Works
- The Harington Scheme
- Mencap
- West Lea
- Shaw Trust

Participants will also learn about

- Supported internships and employment schemes
- Workplace support, including Access to Work and reasonable adjustments
- Specialist employment support for Haringey residents with learning disabilities and/or autism

Event Agenda

- 12:00 PM – Doors open, refreshments available
- 12:15 PM – Presentation
- 1:15–2:30 PM – Meet supported employment providers and partners

Venue Information

Haringey Sixth Form College is wheelchair accessible and has facilities to support a range of access needs. Attendees are encouraged to note any accessibility requirements in the registration form.

This is a ticket-only event for Haringey residents. To attend, please register in advance via [Eventbrite](#).

Contact for questions or access needs: supportedinternships@haringey.gov.uk

ATTENDANCE TOP TIP FOR PARENTS

Set a consistent morning routine. Ensure your child goes to bed at a reasonable time, wakes up early enough to get ready without rushing, and leaves for school on time. A calm, predictable routine helps prevent lateness and keeps attendance on track.

Attendance and Punctuality Reminder

Please read this important letter regarding your child's attendance and punctuality.

This week's *Values in Action* Hands Off Policy.

You can support your child by:

Explain the Rule

Talk to your child about why the “hands-off” rule exists. Emphasise that it is about keeping everyone safe, avoiding fights, and respecting personal space. Explain that following this rule helps everyone feel comfortable and prevents misunderstandings or accidents. Use real-life examples, like what could happen if someone pushes or shoves in a crowded corridor.

Be Clear About What “Hands-Off” Means

Make sure your child understands exactly what is not allowed. This includes pushing, play-fighting, hugging, or any unwanted touching, even with friends. Be explicit that consent matters and that even well-meaning actions can make others uncomfortable. You might give examples of situations at school and ask your child what they think is acceptable.

Teach Boundaries and Respect

Discuss the concepts of personal space and consent. Help your child understand that they have the right to say “no” and that others have the same right. Encourage them to listen to friends and peers and respect their choices. You could also talk about body language cues, like when someone steps back or avoids contact, as a signal to respect boundaries.

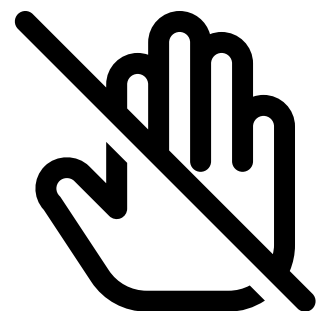

Practice Situations

Role-playing can help your child feel confident in handling tricky situations. Act out scenarios where someone is being too physical or touching them without permission, and practice different responses—walking away, asking politely for space, or seeking an adult. This gives them a clear plan of action and reduces anxiety if it happens at school.

Know the School Rules

Go through the school’s behaviour policy together so your child knows what is expected. Encourage them to ask questions if anything is unclear. Maintaining open communication with teachers and staff ensures that you and the school are on the same page and that your child receives consistent guidance.

[Read the school’s behaviour policy together and stay in touch with staff if unsure.](#)

The Year 11 Space

Hello Year 11,

Well done on reaching the halfway point of the Autumn Term 1. Mock Exams will begin the week after enrichment week, the week starting 11th November – please ensure you are revising hard and sending your revision in to be in with a chance of winning an amazon voucher!

Mr Whitehead

This October, we're Raising the Volume for Dyslexia Awareness Week from Monday 6th October – Sunday 12th October 2025 – making sure dyslexia is heard, understood, and celebrated like never before. [Check out these podcasts](#) on 'Lessons in Dyslexic Thinking' and hear from the world's most inspiring dyslexic people.

“Join us on the 7th October for UCB Live, an interactive online open day! This is your opportunity to explore everything University College Birmingham has to offer – from inspiring courses to award-winning student support.” [Click here to take part.](#)

[Join this Springpod Sprint](#) to try a real employer-designed assessment that focuses on your potential. It looks at things like resilience, creativity, learning agility and digital thinking. Built by Amberjack, a leading assessment provider used by companies like BDO and Atkins, this is your chance to see how assessments really work and where your strengths lie.

Are you member of a book club? Then reading and discussing for a sci-fi or space themed book, short story or parts of books are a great idea! [Check out this list](#) of the Top 100 Science Fiction and Fantasy books.

“The Schools' Aerospace Careers Programme Charity exists to support all young people and educational establishments across the UK with up-to-date careers advice in respect of engineering based industries, especially aerospace, and aviation.” Find out more [here](#).

“Springpod worked with Airbus to create a bespoke and interactive, two-week Virtual Work Experience programme that required students to complete assignments. Work was reviewed and upon approval, students would receive a digital certification which could be included on their CV and/or LinkedIn profile.” Read the Case Study [here](#).

JOB OF THE WEEK

[Astrobiologist](#)

One of the main questions in space exploration is whether there is life in space. Astrobiologists try to determine what is required for life, where these conditions may be found in space and what the signs of life we could detect may be. They will design experiments on Earth to simulate conditions we may expect in space.

LABOUR MARKET INFORMATION FACT

In May to July 2025, the number of people aged 16+ in employment was 34.24 million, and the employment rate for people aged 16-64 was 75.2%.

The employment rate has increased over the last year.

OPPORTUNITIES

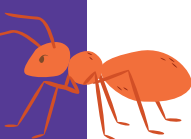

World Space Week is an international celebration of science and technology, and their contribution to the betterment of the human condition. The United Nations General Assembly declared in 1999 that World Space Week will be held each year from October 4th-10th. These dates highlight two historical events:

- October 4, 1957: Launch of the first human-made Earth satellite, Sputnik 1, opening the way for space exploration
- October 10, 1967: The signing of the Treaty governing the Activities in the Exploring and Peaceful Use of Outer Space, including the Moon and other Planets.

With technologies like wireless power transfer and space-based solar power, Matteo Madi, Managing Director of Sirin Orbital Systems, believes the next leap in clean energy will come from space. Read the interview [here](#).

Join this 2-day, [virtual experience](#) in the October break to discover the amazing complexity of ant colonies, how ants contribute to ecosystems and how you can become an ant keeper from the comfort of your own home. Not to mention, gain insights into how you could build a career in Entomology and what avenues there could be to explore

Want to know what it is like to work in the Space industry? Check out the 'UK Space 101' introduction from Space Careers [here](#).

Ever wondered what chemical engineers do and how they tackle global challenges like energy and sustainability? In this short, online session, you'll explore the real-world impact of chemical engineering and even get hands-on by designing a bioethanol production plant. Hosted by Uni of Sheffield, [join now](#) to see if Chemical Engineering is the right course for you.

EMPLOYER SPOTLIGHT
